Congratulations!
Winner of the 2015 Breeders' Cup Classic

THE WINNING FORMULA FOR CHAMPIONS

Adequan® i.m.

polysulfated glycosaminoglycan

The only FDA-approved PSGAG on the market for equine intramuscular use proven to:

- **STOP** the destructive disease cycle
- **REVERSE** degenerative joint disease
- **IMPROVE** joint function

For more information on equine joint health and treatment with Adequan® i.m. (polysulfated glycosaminoglycan), please visit www.adequan.com.

American Pharoah, the 12th winner in the history of the Triple Crown®!

Owned by the Zayat Racing Stable, trained by Bob Baffert and ridden by Victor Espinoza, American Pharoah won the 141st Kentucky Derby, the 140th Preakness Stakes and the 147th Belmont Stakes.

Available for order!

INDICATIONS

For the intramuscular treatment of non-infectious degenerative and/or traumatic joint dysfunction and associated lameness of the carpal and hock joints in horses.

IMPORTANT SAFETY INFORMATION

There are no known contraindications to the use of intramuscular Adequan® i.m. brand Polysulfated Glycosaminoglycan in horses. Studies have not been conducted to establish safety in breeding horses. **WARNING:** Do not use in horses intended for human consumption. Not for use in humans. Keep this and all medications out of the reach of children. Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian. Each 5 mL contains 500 mg Polysulfated Glycosaminoglycan.

See Product Package Insert at www.adequan.com for Full Prescribing Information.

HOPE and HELP for Permanently Disabled Jockeys

Painting by Thomas Allen Pauly

The Permanently Disabled Jockeys Fund (PDJF) provides financial assistance to jockeys who have suffered catastrophic on-track injuries. These men and women face adversity far greater than their disabilities. Their personal lives and the well-being of their families are changed forever.

www.PDJF.org, P.O.Box 803, Elmhurst, IL 60126, Phone 630-595-7660

Permanently Disabled Jockeys Fund is a registered 501(c)3 public charity

A Publication of The Jockey Club

Information Systems, Inc.

and the Thoroughbred Owners

and Breeders Association, Inc.

INTRODUCTION

The 1st quarter edition of "National Stakes Conditions" includes North American racing from Jan. 16 onward. This supplement to the Jan. 16 edition of *Blood-Horse* is published in association with the National Thoroughbred Racing Association and the Thoroughbred Racing Associations, which is responsible for distribution of additional copies to racing offices of TRA member tracks. It is designed as a guide for Thoroughbred owners, trainers, breeders, racing officials, and fans. Published information includes name of race and track; scheduled run date; purse; age, sex, and state-bred restrictions; distance; surface; nominating fee; and closing date for nominations.

The listing by racetracks includes all stakes supplied to *Blood-Horse*, regardless of purse. Subsequent listings—by age and sex, distance, and chrono-

logically—include only those races valued at \$50,000 and higher and may include restrictive funds from state incentive programs.

Information, as supplied by the racetracks, is believed to be accurate, and every effort has been made to ensure the accuracy of the listings. If occasional errors should occur due to incorrect data received, subsequent changes by tracks, or mistakes in processing, *Blood-Horse* disclaims responsibility for any consequences of such errors.

A complete listing of American Graded Stakes for 2016 may be found at www.bloodhorse.com. An explanation of the grading process and a Members' Guide to the American Graded Stakes may be found at www.toba.org/graded-stakes.

National Stakes Conditions

The Science of Exceptional

Stop flu where it starts.

Trust Flu Avert® I.N. for superior protection against relevant flu strains threatening the U.S. horse population.¹

- Just ONE dose required
 - An ideal first flu vaccine for young horses
 - Provides protection at the site of infection and long-lasting immunity
- Proven safe and effective
 - Intranasal application leaves no risk for injection site reactions to interfere with training or competing
- Rapid onset of protection
 - Onset of flu protection within five to seven days following one dose – no matter when your horse was last vaccinated for flu.²

Flu Avert® I.N.
vaccine

Visit us online to learn more about Merck Animal Health and the equine products and programs that help you keep horses healthy.

¹ UC Davis (Nicola Pusterla) & Merck Animal Health. Infectious Upper Respiratory Surveillance Program. Ongoing Research 2008-present.

² Townsend HGG. Onset of protection against live-virus equine influenza challenge following vaccination naive horses with a modified-live vaccine. Unpublished data.
