

DIRT AND TURF PROGENY HISTORIES AT PIMLICO, 2000-16

The charts on the following pages show the dirt and turf performance statistics from 2000 through 2016 for the progeny of sires represented by a starter at Pimlico Friday, May 19, and Saturday, May 20. If a sire is not listed, then he's had no starters at Pimlico during the designated period. Several of the sires not listed are second-crop sires that haven't as many runners relative to other sires. These missing sires are represented by the progeny records for their own sires, such as The Factor, whose sire is War Front. Sires included had five or more starters at Pimlico during the time period unless they had a winner. All sires or grandsires of Preakness Stakes (G1) starters are in bold. All percentages are calculated from runners. The "Wnrs ≥9f" is the number of winners at 9 furlongs or more.
